PROPERTY & CASUALTY INSURANCE

At Spazzatura we pride ourselves on taking a hands-on approach to the underwriting process. By working closely with you we can fully educate our underwriters on your business and its operations, allowing us to customize terms, conditions and rates for each risk distinctively. Always available to our clients is a support staff to assist with loss control, claims handling and all else pertaining to the field of insurance.

Meanwhile, our standard quarterly reviews utilize quantitative analysis to reveal ongoing opportunities for improved coverage and minimized costs. We regularly monitor changes in the insurance market so that we can offer the most innovative and value-enhancing products and services to our clients.

TRANSPORTATION & RELATED COVERAGE

As products leave their port of origin and make their way towards their final destination, significant exposures can arise. Our cargo insurance offerings are broad enough that you can insure your goods from vendor all the way through to point of sale. We specialize in offering unique and innovative products related to consumer and wholesale goods including ocean, air, and ground transportation coverage.

FOREIGN & INTERNATIONAL COVERAGE

Pure domestic business operations are a rarity in an economy that is becoming ever more global. Even without an overseas office, you may easily develop exposure in international locations not covered by your domestic property and liability insurance policy.

Our experience in assessing and mitigating overseas risk provides you with the confidence for expansive goals. By remaining attentive to our clients, we develop specialized plans tailored to distinct international business needs.

DOMESTIC & FOREIGN EMPLOYEE BENEFITS

Today's businesspeople travel the globe on a moment's notice, but uniform healthcare does not. How do you keep your employees well protected during the course of business operations both domestically and internationally?

Our partners offer global coverage 24 hours a day, using only top-rated carriers licensed on a worldwide basis. Sprezzatura provides peace of mind: health, dental, life, disability and group plans that meet your needs. We can customize an employee benefits solution that will enhance employee participation, stimulate employee morale and even attract new talent. Sprezzatura guarantees a benefits program that's built to work around your company, not the other way around. Our service professionals provide the support you need with the care you deserve.
